

## Airport Project

### Major Capital Projects executed.

**Terminal One** - Construction of the Terminal 1 International departures concourse and subsequent fit out of the retail area. Major services had to be relocated along with accepting no disruption to the terminal's activities. Baggage belt infrastructure integrated into the existing system

**Eastern apron development phase 1** - Taxiway expansion project for 'code F' large body aircraft and provide additional serviceable parking area for both JX and JV aircraft.

**Terminal 3-MSCP Central Heathrow** - The new build MSCP completed over the Heathrow express hub. This include the Terminal 3 Forecourt Integration and demolition of the former car park 3.

**Runway** - South runway rebuilt and resurfaced in sections
